# Smart Presale Bidding Mechanism

The Smart Presale Bidding Mechanism is a groundbreaking feature that allows early investors to place bids on the price at which they want to sell their TGF Coin during the presale, with options ranging from **2x to 8x** the purchase price. This innovative mechanism not only minimizes selling pressure during the public launch but also provides structured exit opportunities for early supporters.

## Initial Purchase and Bidding

The Smart Presale Bidding Mechanism is a groundbreaking feature that allows early investors to place bids on the price at which they want to sell their TGF Coin during the presale, with options ranging from **2x to 8x** the purchase price. This innovative mechanism not only minimizes selling pressure during the public launch but also provides structured exit opportunities for early supporters.

## Example :

- Stage 1 Purchase Price Starting from: **\$0.05**
- Bid to Sell: **\$0.10 (2x), \$0.20 (4x), up to \$0.40 (8x)**

**TRUST GAMING  
FEDERATION**

# BID Execution

- When the next stage begins, 50% of the tokens sold in the new stage are allocated to Stage 1 bidders at their bid price.
- The remaining 50% of the new stage's tokens are sold at the current stage's price.

## Benefits

- **Early Profit Opportunities** : Investors can choose their exit price, ranging from 2x to 8x returns before the public launch.
- **Reduced Selling Pressure** : By enabling early exits, there is less likelihood of a sudden sell-off during the public launch, helping to maintain price stability.
- **First in Industry** : This mechanism offers investors a unique opportunity to exit even while the presale is ongoing, with the added safety net of a 50% buyback guarantee.

# 50% Guaranteed **Buyback**

## **Groundbreaking Buyback Guarantee:**

- 50% Buyback Guarantee for all Phase 1 Investors.
- Investors can sell their tokens back at 50% of the Phase 1 price (\$0.05), providing unmatched security and confidence.

## **Why This Matters:**

- **Unprecedented in Crypto:** This buyback guarantee is a first-of-its-kind in the cryptocurrency space, offering a safety net that has never been available before.
- **Investor Protection:** Reduces the risk of early investment, ensuring that even in the worst-case scenario, investors retain significant value.
- **Trust Building:** Demonstrates the team's commitment to long-term success and investor trust, setting TGF Coin apart from other projects.

**TRUST GAMING  
FEDERATION**

# Long Term Benefits

- **Encourages Early Participation** : Attracts investors who might otherwise be hesitant, knowing they have a safety net.
- **Market Stability** : The buyback mechanism helps to stabilize the token price, preventing drastic drops and fostering a healthy market environment.
- **Confidence Boost** : Enhances investor confidence, potentially leading to stronger demand in later stages.

## **Positioning TGF Coin as a Market Leader:**

- Sets a new standard for investor protection in the crypto industry.
- Establishes TGF Coin as a trustworthy, innovative project with a clear focus on long-term value creation.
